WE PROVIDE FINANCIAL SOLUTIONS

Visit one of our licensed city center offices and you will be warmly welcomed and introduced to your dedicated Consultant. During this first meeting your Consultant will help identify where you are today and where you want to be over the months and years ahead. Once your objectives are clear, planning for financial security and success begins.

After the first consultation, your Consultant will provide sound advice, utilising the entire resources of Austen Morris Associates and our team of dedicated researchers. Once completed, the report will be delivered to you in preparation for your second consultation.

The main objective for the second consultation, is to answer any questions you or your partner may have regarding the recommended plan, we will then begin the journey to your financial security together.

You will now have taken the most important step towards achieving financial security and independence. If for any reason additional information is required or your circumstances change, we will arrange to meet again until your new needs are satisfied.

With your personal Consultant, we will constantly monitor the progress towards the achievement of your goals and inform you of any new financial opportunities. You will have access to the details of your investment and a quarterly review through our Wealth Management Service.

Unlike many other institutions, our Wealth Management Service provides a unique ongoing service provided to all our clients, large or small, with additional options available for the more active investor.

Whatever your hopes are for the future, fulfilling them will require solid financial planning and the products and investments to turn your financial planning goals into reality. When implementing your financial planning strategies you may want to take full advantage of the benefits of International Investments, including tax-deferred investments that can help you take advantage of the asset building potential of the financial markets.

“We will always strive to reward the trust you have placed in us by returning the best results to you.”
