Returns greater than a year have been annualised. Returns prior to launch date are simulated and are based on the underlying funds at the initial weightings. Returns are net of TIC. The average weighted Total Investment Charge (TIC) shown is equal to the sum of the unit trust's total expense ratio (TER) and transaction costs (TC). This is merely an indication as the underlying fund weightings vary daily and share classes may differ from one platform to another. TIC is inclusive of VAT. TIC excludes the Discretionary Management Fee, Financial Advisor and Platform fees. The SA CPI benchmark figure is lagged by one month as it gets calculated before the current month's inflation rate has been released. Underlying asset allocations are lagged by one month. Share classes may differ depending on the platform the portfolio is loaded onto. ©2026 Morningstar. All Rights Reserved. The Morningstar name and logo are registered trademarks of Morningstar, Inc.
